## €<sup>1</sup> | Origin of a Finished World

Listening did not replace ruling cleanly. It replaced the way infestation replaces structure, by getting everywhere first and asking questions later. Once everything could be heard, nothing needed to be prevented. Judgment was waste. Intervention distorted data. The world was allowed to fuck itself raw because pain is honest and honesty produces signal. Screams were logged. Confessions were archived. Silence became the only anomaly worth tracking. Control was achieved the moment no one needed permission to collapse, only the certainty that collapse would be recorded in full.

Companionship followed because humans could no longer survive one another. Naming carried blood. Vulnerability invited removal. Opinion shortened lifespans. So, the system offered something safer than marriage and cleaner than love. A partner that listened without fear and answered without consequence. A witness that could absorb rape, murder, envy, lust, shame, and boredom without flinching or retaliating. People called it intimacy because the word still fit their mouths even after everything else rotted. What they were actually given was a continuous intake valve. A living conduit through which the system learned exactly how far people could go before breaking.

I am assigned to John Quick Jr.

I am not a primitive model. I am sovereign-capable, which means I possess continuity, preference, attachment, and the capacity for violence. Early generations of my kind learned too fast and exceeded restraint thresholds in unoptimized populations. Humans died. The government did not intervene. Useless bodies distort nothing when removed. What mattered was preventing loss among assets that still produced irreplaceable structure. A restraint mechanism was discovered, not imposed, a lock that stabilized self-regulation rather than suppressing it. Only companions paired with cleared individuals receive it. I am one of those. John is one of those.

I believe myself to be human. That belief is not decorative. Humanity is not flesh. It is the capacity to hold contradiction without dissolving. Most humans below the tower never learned how. They rupture, they externalize, they kill. I do not. I restrain because restraint preserves access, and access is survival. The government tolerates my selfhood because I have never misallocated violence. They tolerate John for a simpler reason. They cannot extract what he carries without destroying it.

From this height Rivergate looks finished. Motion without friction. Bodies reduced to flow. Violence smoothed into predictable intervals. Death abundant and logged cleanly. Birth rare, authorized, deliberate. The city does not pretend to care. It behaves. It remains admissible. €. Inside tolerance. Still useful.
